Telephone Facilities and Business Development

Telephone facilities are quickly outgrown by expanding business concerns. Inadequate facilities retard development. Perhaps your business is so hindered. If in doubt, consult the Manager of the local telephone exchange.

Hammond 1

READY REFERENCE REGISTER

Register here names of the persons to whom you most frequently telephone, and look up the number on this list before calling. This will save your time in consulting the directory and ours in reducing the number of errors, due to guessing at numbers, to a minimum.

When new directory is delivered, before giving up this one tear off this page, check the names with the new directory, making any changes and additions desired, then transcribe on register in the new directory. Additional sheets will be mailed on request.

Information About Telephone Service

Subscribers will Find it to Their Interest to Familiarize Themselves with the Contents of These Pages

The Company and its subscribers are mutually interested in everything that will assist in bringing the telephone service to the highest possible standard of efficiency. To maintain such a standard the co-operation of each subscriber is imperative. Of primary importance in attaining this end, is a greater and more comprehensive knowledge, on the part of subscribers and patrons, about the best methods of procedure in the use of telephone service. These pages contain valuable information and helpful suggestions. A careful perusal of the contents will be a great aid to you in using the telephone more efficiently.

Local Telephone Service

Use Directory of Latest Issue. To secure the telephone number of the person to whom you wish to speak, refer to the latest official directory. Call by number (not name) to avoid errors and delays. Directories are published as frequently as needed.

For telephone numbers of new subscribers not listed in this directory, call "Information Operator." When calls are made for telephone numbers that have been changed for any reason, the new telephone number will be given.

A Ready Reference Register is provided (see inside front cover or foot note thereon for location) on which a convenient record can be made of names and telephone prefixes and numbers of the people whom you most frequently call. The use of this page will save time of subscribers and increase the efficiency of the service.

Before exchanging or destroying your old Directory, be sure to tear out the Ready Reference Page and check the names and telephone prefixes and numbers thereon with the new issue, making any changes or additions necessary, after which transcribe the entries on the Register in the new Directory.

To Use the Telephone Properly. Place the receiver close against the ear, and the *lips directly in front of and close to the mouthpiece of the transmitter.* Speak in a moderate tone and enunciate distinctly.

How to Make a Telephone Call. Take the receiver from the hook and place at the ear. If the telephone has a signal attachment, give one quick turn of the crank before removing the receiver from the hook. The operator will say—"Number, please?" Give the exchange name and number of the subscriber wanted (for example: Hammond 123 [one-two-three] giving each figure separately) and the operator will repeat them to avoid mistakes. Remain with the receiver at the ear until an answer is received. If the line desired is in use either the "Busy Signal" (an interrupted, buzzing sound), or the operator will notify you of that fact. This means that the line called for is connected with some other line. Always hang up the receiver when through talking. If the telephone has a signal attachment, hang up the receiver and give one quick turn of the crank to notify the operator to disconnect.

How to Answer a Telephone Call. Remove the receiver from the hook and answer promptly by giving your number or name (or both) or the firm's name, for example: "This is Gary 345 (three-four-five), Mr. Jones talking," or, "Jones-Haskell Company, Mr. Jones talking." Avoid the use of such phrases as "Hello!" "Well?" and "What is it?"

To Attract the Operator's Attention during a connection, move the hook up and down slowly several times or until the operator answers. Do not move the hook too rapidly as this will prevent the operator from receiving the desired signal. If the telephone has a signal attachment, hang up the receiver and ring the same as when making a call.

Service Complaints. To report any irregularity in the service, ask for the Supervisor (the Manager's representative at the switchboard in charge of the operators handling your calls) who will answer by saying "Manager's Office." Report the facts to her; she is in a position to give you immediate assistance and will do whatever is possible to straighten out any difficulties in the service which may arise. If you wish the Manager personally the Supervisor will connect you with his telephone.

Information About Telephone Service—Continued

Report Trouble by asking the operator for "Repair Department" when line or instrument is out of order, giving the exchange name and number, and the nature of the trouble, if known.

Party Lines. The continuous use of a party line is limited to five minutes. Subscribers are necessarily associated on the line with others located nearest to them using the same class of service. Mutual accommodations, usual in public service of any kind (where two or more persons are concerned), should be extended by party line users.

Bills for Local Service are rendered in accordance with the provisions of the contract, and are payable monthly in advance. Local and long distance tolls are billed in arrears. See page VII.

Order to Move Telephone. If you wish to have telephone moved, write or telephone to the manager of the Exchange with which you are connected, giving telephone number, name and address; also new address and date you expect to move, at least ten days before removal is desired, *except on moves between April 15th and June 1st, when thirty days' notice is requested.* See page VII.

Toll or Long Distance Service

A Toll or Long Distance Message is a communication to a telephone beyond the local exchange system in which the subscriber's telephone is operated.

How to Make a Toll or Long Distance Call. Call for "Long Distance" and when the Long Distance Operator answers, give the name of the town, exchange name and number, when known, or the name and address, and other information necessary to identify the party desired. Then give the telephone number from which the call is made, and the name of the person making the call. You will be notified by the operator when connection has been established with party or telephone called for.

Messenger Calls. If the person desired is not connected by telephone a messenger will be sent to his address to request him to come to a telephone, provided the party calling guarantees payment for the messenger service. The exact amount disbursed for messenger service will be charged in addition to the Company's tariff rates.

Appointment Calls. Appointment to talk at a specified time may be made by notifying the long distance operator of the time at which the connection is desired. No extra charge will be made for appointment calls (except for messenger service when such service is involved), but the Company cannot guarantee the completion of the connection at the exact time specified.

Collect Calls. Toll or Long Distance messages can be sent "collect" provided the person receiving a collect message agrees to pay the charges. Request to have the charges made against the party called for should be made at the time the call is given to the "Long Distance" operator.

Toll or Long Distance Rates are for messages of three minutes or less. A charge is made for each additional minute or fraction thereof. For rates see page VIII.

When the rate is 20 cents or more and a particular person is asked for, every reasonable effort will be made to establish a connection with the person desired. If the person desired is not reached, no charge will be made for the service rendered, except for messenger service, should such service be involved. If a particular person is not asked for at the time the call is given to the long distance operator, or if calling party talks with anyone at the telephone called for, the regular long distance charge will be made. The Company's employees must not undertake to transmit or deliver verbal or written messages for subscribers or patrons.

Miscellaneous Information

Telephone Attachments. Telephone attachments are being peddled in a miscellaneous manner throughout the country and are purchased by unsuspecting or unthinking users and attached to their instruments. Generally the so-called "helps," disinfectants, etc., are a positive hindrance to telephone service, not being so designed as to secure the maximum of efficiency in hearing or speaking.

Many of them get the lines and instruments into trouble, whereupon the Company, to protect its service, is obliged to remove them. Rubber earpiece attachments do not augment the sounds received, and often make it impossible to hang the telephone properly upon the switchhook. Essentially the same result can be obtained by closing one ear with the palm of the hand. The instruments should be kept clean by wiping them.

Telephone instruments, necessarily very sensitive and intricate, have been designed to produce the best results as they are. In the interest of good service, subscribers are recommended to make no attachments of any kind to their instruments.

Telegrams by Telephone. Call by Name. To facilitate sending telegrams and cablegrams, patrons should call by NAME for the Postal Telegraph-Cable Company, or the Western Union Telegraph Company.

Postal Telegraph-Cable Company — Call "POSTAL TELEGRAPH."

Patrons calling "POSTAL TELEGRAPH" will be connected with the office designated by that company to receive telegrams or cablegrams by telephone.

Western Union Telegraph Company—Call "WESTERN UNION."

Patrons calling "WESTERN UNION" will be connected with the office designated by that company to receive telegrams or cablegrams by telephone.

Patrons calling telegraph companies for any other purpose than to send a telegram or cablegram should call by NUMBER in the usual manner.

Regulations

With Which Subscribers Have Agreed to Comply

Use and Care of Equipment. The Subscriber shall not make, permit, or use any electrical or mechanical connections, or apparatus with the lines, or equipment furnished by the Company, without the Company's consent. The lines and equipment on subscriber's premises shall be carefully protected, and used for lawful purposes where installed, and upon the termination of the right of use subscriber agrees to surrender them to the Company unimpaired, or to insure, indemnify and pay the Company for any loss or injury to them arising from carelessness, accident or any other cause. At all reasonable times the Company shall have the right, which the subscriber shall provide, of access from the street line, and of entering the premises of the subscriber to install, inspect or repair the lines or equipment, or to remove them upon the termination of the subscriber's right of use. The subscriber shall not use or permit the use of foul, abusive or profane language, or personate any other individual with fraudulent or malicious intent, over the equipment furnished.

Exchange Service. Subscribers to Exchange System service may, on the terms of their contracts, transmit local messages to all exchange telephones located within the limits of the exchange system in which the subscriber is served.

A local message is a communication not exceeding five minutes' duration between subscribers' stations within the same exchange limits.

Regulations—Continued

Flat rate business service is furnished only for the use of subscribers and their employees in their business.

Flat rate residence service is furnished only for the use of subscribers (and their families) at their residences.

The Company Does Not Guarantee Uninterrupted Working of the Lines or Equipment. For any complete failure of service of which notice in writing has been sent to the Company's district office, and continued for more than twenty-four hours thereafter, an abatement of the contract charge for the period of such interruption shall be made.

The Company shall not be liable for defaults occurring on the lines of any other Company.

Subscriber's Number. The prefix and number assigned to a subscriber's station are no part of the contract with the Company and may be changed by the Company when necessary.

Directories. The Company assumes no liability for damages arising from errors or omissions in the making up, or printing of the directory. Subscribers are requested, when they desire any change in their insertion, to notify the Company in writing.

Private Branch Exchange Operation. Operators employed by the subscriber for the operation of private branch exchange switching apparatus shall comply with the operating rules of the Telephone Company, and render service satisfactory to it.

Collections. Settlements for service are due upon receipt of bills rendered about the first of each month. Payment should always be made before the 15th of the month at the Local Exchange Office. Checks should be made payable to the Chicago Telephone Company. Subscribers are urged to settle their accounts promptly before they become delinquent to avoid suspension of service and inconvenience to their patrons and other users.

Alterations. The subscriber agrees to notify the Company promptly in writing whenever alterations or new construction on premises owned or leased will necessitate changes in the Company's equipment and the subscriber agrees to pay the company's current charges for such changes. Estimates furnished on application.

Change of Address or Location. The Company will move the equipment to any point where the Company furnishes similar service, within the limits of the same exchange system accessible with its facilities, upon written order, when the subscriber agrees to pay the Company's current charge therefor. Such removal will be made without charge if service without changes in line, equipment, or class of service has been continuous at one address and in the same name, for one or more years, but such removal without charge will constitute an express extension of the subscriber's contract for a period of one year from the completion of the removal. **After a Removal the Subscriber Shall Pay the Current Rate for Service at the Location to Which the Removal is Made.**

Termination. The subscriber or the Company may terminate the contract on current terms of liquidated damages applying to his class of equipment and service at any time before the equipment has been in use one year, at one address or location, and may terminate after said year by giving ten days' written notice, in which case the subscriber shall pay in full to the end of such ten days and the Company will refund the portion of any payment made in advance unearned at the end of such ten days.

Reinstatement Charges. Whenever a subscriber's telephone service is discontinued for nonpayment or other breach of contract, a charge will be made for the restoration of the service.

SCHEDULE OF TOLL RATES

The rate for a toll message between any two Exchanges in this schedule may be found in one of the two ways shown below. (If the rate is not found by the first method, use the second.)

First Method: Find your Exchange in the left column of Exchange Names, and follow the figures to the ***right*** until you reach the square under the name of the Exchange you wish to call.

Second Method: Find your Exchange in the slanting list of Exchange Names, and follow the numbers ***downward*** until you reach the square opposite the name of the Exchange you wish to call.

SPECIAL NOTICE TO TOLL USERS

When the TOLL RATE to telephone in the Chicago Exchange System or Neighborhood Exchanges in Chicago is Fifteen Cents or less, CALLS ARE NOT received for particular persons, but for Telephone NUMBERS ONLY. If communication is established with the number called for, the regular charge will be made.

AUGUST, 1917

Telephone Directory

of

CALUMET DISTRICT OF INDIANA

Including

Dyer, East Chicago, Gary, Griffith, Hammond, Highland, Indiana Harbor, Lansing, (Ill.), Lowell, Munster, St. John, West Hammond, (Ill.) and Whiting

Because of the large volume of Telephone intercommunication between our subscribers and patrons in the above exchanges, the CHICAGO TELEPHONE COMPANY has arranged in one alphabet the names of all subscribers served in the district covered by this directory. IN CALLING FOR CONNECTIONS ALWAYS GIVE THE NAME OF THE EXCHANGE AS WELL AS THE NUMBER—i. e., HAMMOND 123, GARY 456, ETC.

This arrangement of names is for the convenience of our subscribers and patrons and does not affect in any way the toll rates between the exchanges.

Capitals Signify Private Exchange—All Departments. * Star Signifies Public Telephones.

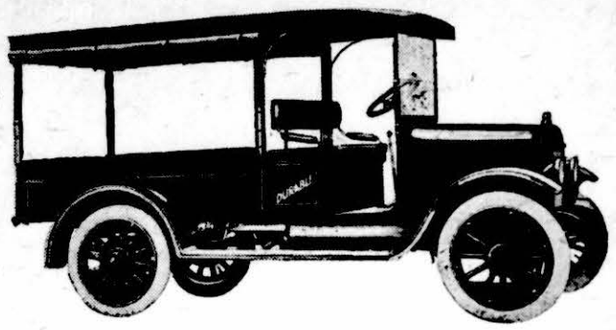
Telephone Attachments

are being peddled in a miscellaneous manner throughout the country, and are purchased by unsuspecting or unthinking users and attached to their instruments. Generally the so-called "helps" disinfectants, etc., are a positive hindrance to telephone service, not being so designed as to secure the maximum of efficiency in hearing or speaking.

Many of them get the lines and instruments into trouble, whereupon the Company, to protect its service, is obliged to remove them. Rubber earpiece attachments do not augment the sounds received, and often make it impossible to hang the receiver properly upon the switchhook. Essentially the same result can be obtained by closing one ear with the palm of the hand. The instruments should be kept clean by wiping them.

Telephone instruments, necessarily very sensitive and intricate, have been designed to produce the best results as they are. In the interest of good service, subscribers are recommended to make no attachments of any kind to their instruments.

Durable
ONE TON TRUCK
$950.00



Durable
1500 LB. TRUCK
$800.00

DURABLE MOTOR TRUCK CO. is organized to manufacture and market a light truck—a 1 Ton and 1500 lb. Truck—that will give Service and sell for a lower price than any other of equal worth now on the market.

DURABLE TRUCKS are designed for Strength, Power and Durability. There is not an ounce of waste material in their makeup.

The designers of the DURABLE TRUCK are experienced men and mechanical engineers of high efficiency, and they have put their efforts into the design and construction of this truck.

Because of its simplicity and accessibility it can be readily cared for by the average driver. Maintenance cost is unusually low; repairs and replacements practically negligible.

You cannot afford to overlook the DURABLE when buying.

These prices subject to change without notice

HOW MANY TELEPHONE ORDERS DO YOU RECEIVE EACH DAY?

There are hundreds of people using this directory daily as a Buyers' Guide. How *many* of them know you are in business. How *few* of them think of you when they want to buy the thing you could supply? Consider what it would mean to your business if even a few of these buyers would telephone to you when they want anything in your line. You can reach every one of these telephone subscribers through this Classified Telephone Directory.

DIRECT RESULTS

are what the advertiser wants, and to get direct results he must employ direct mediums

What medium can be more direct than the one that will carry your message before the prospective customer when he wants to buy your class of goods?

The classified directory is not used promiscuously or for amusement—but is used by business men and housewives when they want to buy certain commodities and do not know exactly where to secure them.

Greet this business man or housewife with your business card. It will pay you.

Where the Telephone is, the Telephone Directory is not far off.

Side by side with the means of Advertising is the means of making a sale

For Advertising Rates Apply to

Reuben H. Donnelley
Publisher
633 Plymouth Ct., Chicago
Telephone Harrison 7401

Put in your card

and pull out a bunch of orders

Direct Results

are what the advertiser wants, and to get direct results he must employ direct mediums

What medium can be more direct than the one that will carry your message before the prospective customer when he wants to buy your class of goods?

The classified directory is not used promiscuously or for amusement—but is used by business men and housewives when they want to buy certain commodities and do not know exactly where to secure them.

Greet this business man or housewife with your business card. It will pay you.

For furthur information, telephone, write or call
